

CURB MARKET TRANSACTIONS

Copper Stocks Improve—Oils Dull—Industrials Active and Firm in Spots.

Prices in some of the more active curb stocks yesterday were sharply advanced, and at the close gains were considerable, though were recorded. The industrial list was narrow, with interest in a few issues. *Atina Explosives* was actively dealt in, going as high as 24½, nearly 4 points above Friday's close, but later reacting to close with a gain of about a point. United Cigar Stores, when issued, advanced over 3 points.

Petroleum stocks generally were quiet. Ohio Oil lost 7 points on small business. The miscellaneous oils were active in spots, with a sharp price advance. Practically all of the copper miners a good show of strength, Kennecott touched 56½, a maximum gain of nearly 2 points, and ended only fractionally under its best. United Verde gained nearly a point and Cerro de Pasco half a point.

INDUSTRIALS.

TOTAL SALES FOR THE WEEK.

Open. High. Low. Last.
